### Characteristic features:

- Simple operation, only four fastening knobs needed.
- 50% buffer savings compared with traditional tanks.
- Unfolded electrodes make repair and parts replacement easy and quick.
- Special heat dissipation processed aluminum plate firmly clingsto the gel plates, which effectively guarantees the gel temperature is even, ensuring the electrophoresis trip is straighter. • Abundant buffer not only guarantees cooling effects, but also keeps the pH Value stable during the whole experiment process.
- Auto-switch-off when the lid is removed.
