

Horizontal Electrophoresis (BL- SP3)

Technical specifications:

Gel Size (W×L)	66×250mm; 82×250mm.
Buffer Volume	560ml
Dimension (L×W×H)	318×175×65 (mm)
Net weight	1.0 (kg)

Characteristic features:

- Fast electrophoresis running speed, the whole process can be finished within 15mins
- 96 sample detection in one time;
- Adding the sample quickly, suitable for thematic-channel pipettes;
- Auto-switch-off when the lid is removed.
