

ZYMO RESEARCH

The Beauty of Science is to Make Things Simple

Product Change Notification Letter

Date: February 02, 2024

Product Change Notification #: RD.PCN.125

Dear Valued Customer:

We would like to inform you of a change affecting products effective April 01, 2024.

We recommend a copy of this notification be forwarded immediately to the personnel in your organization affected by the change.

We would like to inform you that Zymo Research has decided to discontinue the manufacture and distribution of the OneStep qMethyl PCR kit – Catalog numbers **D5310/D5311** by April 1st, 2024, or while supplies last. Please note that this decision is contingent on the upcoming launch of an optimized enzymatic digestion based DNA methylation PCR assay. The new OneStep PLUS qMethyl-PCR kit will feature updated methyl-specific restriction enzymes and flexibility with fluorescent dyes or molecular probes of the researcher's choosing.

Zymo Research will be offering early access to the new product (OneStep PLUS qMethyl-PCR kit), please reach out for further information.

Description of Change: Products D5310 and D5311 (OneStep qMethyl PCR kits) will be discontinued as of April 01, 2024. The replacement product (OneStep PLUS qMethyl-PCR kit) will be launched with the announcement at a later time.

If you have any questions or concerns, please reach out to intltech@zymoresearch.com.

Thank you for your continued business.
