Mini Centrifuge (BL-MINI-7K)

Mini Centrifuge (Fixed speed & Variable speed)

The BL-MINI-7K Mini Centrifuge features a sleek design, versatile tube compatibility, automatic operation, and a convenient built-in timing function.

Highlights

- ◆ Innovative Design
- ◆ Enhanced Centrifugal Force
- ◆ User-Friendly Operation
- ◆ Silent, Durable Performance

The BL-MINI-7K Mini Centrifuge embodies a captivating and distinctive design. It boasts an elegant and adept structure, featuring two rotor variants and various tube carriers suitable for 2.0ml, 0.5ml, and 0.2ml tubes, as well as 0.2ml x 8 PCR tube strips. Engineered with user convenience in mind, this centrifuge initiates automatic start/stop functionality by simply opening or closing its cover. Additionally, the Mini Centrifuge series incorporates a built-in timing feature, enhancing its functionality.

Features

- ◆ **Innovative Design:** Featuring a fully transparent top cover and multiple rotors, catering to diverse experimental needs.

The Mini Centrifuge features a fully transparent rounded top cover and comes equipped with multiple rotors to cater to diverse experimental requirements.

- ◆ **Enhanced Centrifugal Force:** Larger radius rotor design delivers 1.5 times more force than standard rotors at equivalent speeds.

Its centrifugal force is amplified by 1.5 times through a large radius rotor with eight tube slots, delivering 1.5 times greater force compared to a standard six-hole rotor at equivalent rotation speeds.

- ◆ **User-Friendly Operation:** Automatic 95° cover opening, one-hand operation, and hassle-free rotor replacement.

The upper cover conveniently pops open to 95° automatically, triggered by an outwardly designed start/stop press-button. This design facilitates effortless one-handed operation.

- ◆ **Silent, Durable Performance:** Ultra-low noise, maintenance-free motor ensures long-term reliability and safety.

With a unique rotor buckle design, replacing and handling rotors becomes notably convenient. Additionally, the centrifuge operates with an ultra-low noise, durable motor, ensuring silent and stable performance. The motor is maintenance-free, ensuring a long lifespan and safety during use.

Specifications

Model	BL-MINI-7K
Speed Range	7000rpm
Centrifugal Force	3400xg
Sample Capacity	8 x 2.0ml/1.5ml/0.5ml/0.2ml tube (additional 0.5ml and 0.2ml tube carriers)
Time Range	1s - 99min59s
Working Noise	≤55dB
Voltage	AC220V/AC110V, 50/60HZ
Power	220V/110V 50-60HZ
Dimension (WxDxH)	176x156x121 (mm)
Net Weight	≤1.5kg

Add: Third Floor, Plot No. 25, Community Centre, Block B-1, Janakpuri, Delhi-110058
